CQI IRCA Certification #2165

CQI IRCA Approved Training Partner #0602 2954

Objective

This course provides students with the knowledge and skills required to perform an internal audit of part of a environmental management system (EMS) based on ISO 14001 (or equivalent) and report on the effective implementation and maintenance of the management system in accordance with ISO 19011

The course meets the training requirements for internal auditor certification set by the Chartered Quality Institute and International Register of Certificated Auditors **(CQI IRCA, www.quality.org)** of the United Kingdom.

COURSE CONTENT

- General introduction;
- Environmental management principles, vocabulary and ISO 14001 requirements;
- Document review and audit planning;
- Process auditing and audit skills;
- Writing Nonconformity reports and audit reporting;
- Audit follow up.

PREREQUISITE

Prior knowledge on

- Management systems including the PDCA cycle and the core elements of a management system
- EMS intended outcomes
- ISO 14001 requirements and the commonly used environmental management terms and definitions

The ALAUDA WAY

Through tutor-led discussions, exercises, workshops and role-plays, students will gain sufficient knowledge and skills in the entire auditing process and get prepared as an EMS professional.

WHO SHOULD ATTEND

- Members/supporting personnel of the Environmental Management team who have responsibility to audit/implement/improve a environmental management system
- Personnel who are involved in operation/engineering/purchasing who wish to gain maximum benefit from the EMS implementation; and
- Any other personnel who wish to advance their career in management systems, irrespective of discipline.
