COURSE CONTENT

- General Introduction
- Understanding of ISO/IEC 27001 principles, vocabulary and requirements
- Document and record review
- Audit Planning, process, follow up and technique
- Writing nonconformity and audit reporting

Objective

This course provides basic training for potential ISMS Lead Auditors with the knowledge and skills to prepare, conduct, report and follow up 1st, 2nd and 3rd party ISMS audits.

The course meets the training requirements for lead auditor certification set by the Chartered Quality Institute and International Register of Certificated Auditors **(CQI IRCA, www.quality.org)** of the United Kingdom.

PREREQUISITE

Prior knowledge on

- Management systems including the PDCA (Plan, Do, Check, Act) cycle and the core elements of a management system
- Information security management principles and concepts: awareness of the need for information security; the assignment of responsibility for information security; incorporating management commitment and the interests of stakeholders; enhancing societal values
- ISO/IEC 27001 and the commonly used Food Safety terms and definitions

The ALAUDA WAY

The course maintains a harmonious blend of knowledge-based presentations, lively discussions, interactive exercises, and immersive case studies. Approximately two-thirds of the course duration is dedicated to activity-based learning, ensuring students actively engage with the material and apply their newfound knowledge.

To further enhance students' exam preparedness, a mock examination paper will be diligently examined and discussed throughout the course. This exercise serves the dual purpose of familiarizing students with the examination style and honing their skills in tackling exam-oriented questions.

WHO SHOULD ATTEND

- Members/supporting personnel of the Information Security Management Team who have responsibility to audit/implement/improve an information security management system;
- All ISMS auditors who wish to acquire an internationally recognized auditor status; and
- Any other personnel who wish to advance their career in management systems, irrespective of discipline.
