

# ISO 45001 OHSMS INTERNAL AUDITOR COURSE

LIVE VIRTUAL | 14 HOUR | 2 DAY

- Inclusive an 30mins online exam
- 100% Attendance required
- Language : English

 **USD\$540**  
**(tax inclusive)**

## Objective

This course provides students with the knowledge and skills required to perform an internal audit of part of a OHSMS based on ISO 45001 (or equivalent) and report on the effective implementation and maintenance of the management system in accordance with ISO 19011

The course meets the training requirements for internal auditor certification set by the Chartered Quality Institute and International Register of Certificated Auditors (**CQI IRCA**, [www.quality.org](http://www.quality.org)) of the United Kingdom.

CQI IRCA Certification  
#2166

CQI IRCA Approved  
Training Partner  
#0602 2954

## COURSE CONTENT

- General introduction;
- Environmental management principles, vocabulary and ISO 45001 requirements;
- Document review and audit planning;
- Process auditing and audit skills;
- Writing Nonconformity reports and audit reporting;
- Audit follow up.

## PREREQUISITE

Prior knowledge on

- Management systems including the PDCA cycle and the core elements of a management system
- Managing OH&S through hazard identification, risk assessment and risk control and compliance
- Requirements of ISO 45001 and the commonly used OHSMS terms and definitions

## The ALAUDA WAY

By engaging in tutor-led discussions, exercises, workshops, and role-plays, students will acquire comprehensive knowledge and develop essential skills in the field of auditing. This will enable them to become competent OH&S professionals, fully equipped to navigate the entire auditing process.

## WHO SHOULD ATTEND

- The members and supporting personnel of the Energy Management System have the responsibility to audit, implement, and improve an OHSMS.
- Personnel involved in operation, engineering, and purchasing who wish to gain maximum benefit from the implementation of the Energy Management System; and
- Any other personnel who wish to advance their career in management systems, regardless of their discipline
